## PROFESSIONAL SUMMARY

Highly skilled MERN Stack Developer with 3 years of experience in MongoDB, Express.js, React.js, and Node.js, backed by strong programming skills in JavaScript & TypeScript. Implemented redux for efficient state management, resulting in reducing application size. Expertise in React JS and NodeJS, driving 15% improvement in development productivity. Strong communicator with a track record of meeting project goals and exceeding client expectations. Successfully delivered projects to clients, leveraging the power of the MERN stack to streamline processes, enhance efficiency, and improve customer experiences. Ready to contribute to your organization's success and drive impactful solutions.

## SKILLS AND ACCOMPLISHMENTS

- **MERN Stack Development:** MongoDB | Express.js | React.js | Node.js
- **Programming Languages:** JavaScript | TypeScript
- **Frontend Development:** React JS | Micro frontend Architecture | HTML5 | CSS3 | Bootstrap | Redux | ES6
- **Backend Development:** Node.js | Express.js
- **Databases:** MongoDB
- **Testing Frameworks:** Jest
- **Version Control & Collaboration:** Git | GitHub | CodeCloud
- **Web Design & Development:** Web Designing | Web Development | REST API | JSON
- **Code Quality:** ESLint | Prettier
- **Deployment:** AWS
- **Problem solving**
- **Other Skills:** Agile Development Scrum | NPM | Webpack | Babel | Jira
- Earned the **FY23 Q2 Accenture Celebrates Excellence (ACE) Award** in Q2 2023 at Accenture, showcasing exceptional teamwork and delivering outstanding results.

## WORK EXPERIENCE

### Full Stack Developer | Accenture, Bangalore

(06/2021 - Present)

#### Insurance Portal, Accenture, Bangalore

**Tech:** Express.js | React.js | Node.js | Axios | Redux | Babel | Webpack | ESLint | Micro frontend

Here we developed an Insurance Portal that streamlined customer experience, reduced onboarding time by 30%, improved efficiency massively, with reduced errors and enhanced data security with advanced technologies like Redux.

#### Responsibilities:

- Designing, developing, and maintaining web applications using React.js and Microfrontend architecture.
- Creating responsive, reusable user interfaces with React.js and implementing UI/UX designs.
- Conducted code reviews, resolving 90% of bugs and enhancing application performance by 15%.
- Achieved an on time delivery rate of 95% by utilizing Agile methodologies and delivering software modules within tight deadlines.
- Reduced integration time by collaborating with cross functional teams for seamless integration.
- Optimizing application performance and ensuring fast loading times.
- Agile Development, delivering features within timelines.
- Staying updated with the latest frontend technologies and frameworks, continuously improving skills and implementing industry best practices.

### Frontend Developer | Accenture, Pune

(12/2020 - 06/2021)

#### Lease Management System | Accenture, Pune

The Lease Management System is a software solution designed to streamline and automate the management of lease agreements & lease tracking. It has revolutionized the way clients handle lease creation and management, providing them with an efficient and user friendly platform.

**Responsibilities:**

- Utilizing React.js and related libraries to develop responsive and visually appealing user interfaces (UI).
- Created reusable and modular components to ensure efficient frontend development.
- Implemented responsive design techniques to optimize web applications for various devices and screen sizes.
- Integrating with backend APIs and services to fetch and update data, ensuring seamless communication between frontend and backend systems.
- Implemented state management solutions like Redux & Context API to manage and share application state across components.
- Collaborated with UI/UX designers, backend developers, and stakeholders to ensure effective communication and successful project delivery.
- Conducting unit testing and debugging to identify and resolve software defects, ensuring stability and quality.

**Intern | Tata Consultancy Services, Nagpur**

**(12/2019 - 06/2020)**

**Responsibilities:**

- Create wireframes, prototypes, and user flows to communicate design ideas effectively.
- Collaborate with product managers and developers to define and prioritize features based on user feedback and business goals.
- Conduct feedback to refine designs and improve user experiences.
- Given the responsibility of boarding the newly joined interns.

**EDUCATION****B.E (Bachelor of Engineering) in Computer Technology**

**(10/2020)**

Yeshwantrao Chavan College of Engineering, Nagpur, Maharashtra

**Senior Secondary Education**

**(03/2016)**

Balaji Convent High School & Junior College, Nagpur, Maharashtra

**Secondary Education**

**(05/2014)**

Ira International School, Butibori, Nagpur, Maharashtra
